

## TRAY SEALER MANUAL 1208

### ADVANTAGES

- Affordable high-quality equipment
- Simple to operate
- Employees can train each other quickly and easily.
- Easy to clean
- Efficient and reliable after-sales service

### FEATURES

- Manually operated—seals four to six meals per minute
- Easily cuts and seals the film
- Light and compact
- Made of stainless steel and plastic
- The hot plate self-aligns and ensures consistent perfect sealing.
- Compatible with a large assortment of tray carriers.

**Economical, compact and easy to use!** Designed for kitchens that produce and package fewer than 75 meals per day, the 1208 manual tray sealer is ideal even for five meals per day. The machine is light, compact and will fit perfectly on your counter. The manual cut-off feature creates a secure no-mess package. The tray carriers are easily changed and maintained.
