

TRAY SEALER MANUAL 1308

ADVANTAGES

- Affordable, high-quality equipment, reliability guaranteed
- Tray carriers can be changed in less than five seconds
- Easy to clean
- Easy to operate
- Compact
- Efficient and reliable after-sales service

FEATURES

- Manually operated—seals six to eight meals per minute
- Easily cuts and seals the film
- The hot plate mechanism ensures continuous operation
- Made with solid, easy-to-clean materials

Affordable, reliable and versatile. The Oliver 1308 tray sealer is designed for kitchens that prepare 75 to 300 meals per day. This machine automatically cuts the film, efficiently creating a complete, evenly sealed package with both paper and plastic trays. Each tray has a compatible tray carrier that is easily changed and maintained.
