

TRAY SEALER AUTOMATED 1908E

ADVANTAGES

- Very reliable and affordable
- Easy to clean
- Safe and easy to operate
- Maximum sealing
- Maximizes productivity
- Efficient and reliable after-sales service

FEATURES

- Highly efficient intermittent-motion, sealing 10 - 27 packages per minute
- Made of stainless steel and anodized aluminium
- Removable tray carriers made of aluminium
- Adjustable speed

The most affordable high-capacity, automated packaging system on the market! The 1908E tray sealer is the perfect solution for your meal packaging. Ideal for kitchens that produce and package 300 to 500 meals per day, it is both efficient and easy to use. The tray sealer's rolling, lockable wheels allow for greater flexibility in the layout of your kitchen. Tray carriers are easily removed, installed and maintained.
