

## TRAY SEALER MANUAL 1308

### ADVANTAGES

- Affordable, high-quality equipment, reliability guaranteed
- Tray carriers can be changed in less than five seconds
- Easy to clean
- Easy to operate
- Compact
- Efficient and reliable after-sales service

### FEATURES

- Manually operated—seals six to eight meals per minute
- Easily cuts and seals the film
- The hot plate mechanism ensures continuous operation
- Made with solid, easy-to-clean materials

**Affordable, reliable and versatile.** The Oliver 1308 tray sealer is designed for kitchens that prepare up to 500 meals per day. This machine automatically cuts the film, efficiently creating a complete, evenly sealed package with both paper and plastic trays. Each tray has a compatible tray carrier that is easily changed and maintained.
